Type of Review: Reinstatement of a previously approved collection.

Abstract: The Department of Veterans Affairs (VA) rehabilitation programs are committed to adopting the uSPEQ® Consumer Experience 2.0 Universal Questionnaire, VA Form 10-0467, to assess outcome measures related to patient perceptions and perspectives regarding rehabilitation experiences. The uSPEQ® (pronounced *you speak*) is a confidential, anonymous, and scientifically tested consumer reporting system that gives persons served a voice in their services. A majority of VA rehabilitation program offices serving special emphasis populations have indicated an interest in using the uSPEQ® document as a survey of rehabilitation consumer experiences in their local, regional, and national programs. The uSPEQ survey will be used to gather input from veterans regarding their satisfaction with VA's rehabilitation programs. VA will use the data collected to continue quality improvement, informed programmatic development, and to identify rehabilitation program strengths and weaknesses.
